Most film stock we can pushed up to 3 stops and push/pull up to 1, though this may vary depending on the film stock. We will push or pull as per your instructions, however we advise checking the manufacturer's recommendations regarding push/pull processing for the film. Push processing will increase contrast and grain as well as affect the colour balance.

PRICING - For pricing information please visit <https://www.mcbaincamera.com/film>

SCAN SIZE - Our approximate scan size (shortest edge) is 1200 pixels for 6MB and 2000 pixels for 18MB.

Upon receiving your film we will email you an acknowledgement and invoice, we will also provide an estimated date for delivery of your scans. When ready, a download link will be emailed to you.
